## **ETECH DELIVERS FLAWLESS STAGING FOR SUZE ORMAN KEYNOTE -June 2009-**

**eotech** received overwhelming praise for its work providing project management, technical direction, and staging services for Capella University's PhD Colloquium on June 23, 2009, featuring keynote speaker, Suze Orman. "Suze's presentation tonight was world-class," said Capella University representatives. "Staging and production was flawless - we all know that bad sound, lighting, etc. can kill a keynote, particularly one that is being taped. Suze's [people] liked the production so much, [it was] suggested they use our video for her next PBS special."

The elaborate staging production for Orman's keynote speech included scenery, audio, video and projection. Suze Orman is a 2-time Emmy Award-winning television host, New York Times best-selling author, and one of TIME Magazine's TIME 100, The World's Most Influential People. Her energetic speech to Capella learners delivered both inspiration and straight talk about education and finances.
